Summary

I'm learning to be a full-stack developer. Now I'm a Creative front-end developer with 2 years of self-learning experience. I would like to start my career as a front-end developer and learn more about developer paths and skills. I am a self-motivated, hardworking and talented person. Also, if you kindly give me an opportunity to do the job, I will try my best to achieve the job performance and demonstrate my ability.
